37. Care of a child with immune deficiency
38. Preventing mosquito-borne illnesses (malaria, dengue etc.) (personal protection, environmental management)

VII. NUTRITION

39. Breast feeding: important tips
40. Complementary feeding: when and how
41. Important Vitamins and Minerals and When to suspect Deficiency
42. Nutrition between 1-2 years of age
43. Nutrition of a Pre-schooler (2-5 years)
44. Nutrition of School going Child (5-12 years)
45. Nutrition of Adolescent (12-18 years)
46. Nutritional supplementation in normal children
47. Care of a Child with malnutrition
48. Overweight and Obesity: Detection, Prevention, and Management

VIII. NEWBORN INFANTS

49. Preparing for arrival of newborn and immediate care in first 3 days
50. Physiological variations in a newborn
51. Care of a low birth weight newborn
52. Identifying a sick newborn
53. Neonatal jaundice
54. Baby with visible birth defect—what to do

IX. CARDIOVASCULAR DISORDERS
55. Care of a child with congenital heart disease
56. Importance of BP Check and When to suspect Hypertension
57. Taking care of my child after heart surgery

X. ENDOCRINOLOGIC DISORDERS
58. Stunted Growth: How to monitor and manage
59. Delayed and precocious puberty
60. Hypothyroidism—congenital and acquired
61. Care of a child with diabetes mellitus

XI. GASTRO-INTESTINAL DISORDERS
62. Diarrheal illness
63. Care of a child with Celiac disease
64. Constipation
65. How to deal with recurrent pain abdomen
66. Care of a child with chronic liver disease

XII. HEMATOLOGICAL DISORDERS
67. Care of a child with Thalassemia
68. Care of a child with Hemophilia
69. Care of a child with Anemia
70. Care of a child with leukemia
71. Care of a Child with malignancy/on cancer treatment
72. Care of child after Hematopoietic stem cell transplant
73. Care of childhood cancer survivors

XIII. NERVOUS SYSTEM DISORDERS
74. Home care of a paretic child
75. Home care of a child with Cerebral palsy
76. Care of a child with Duchenne muscular dystrophy
77. Care of a child with epilepsy
78. Acute episode of seizure: What to do?
79. Care of a child with febrile convulsions

XIV. RESPIRATORY DISORDERS
80. My child has fever and cough
81. Care of a child with cystic fibrosis
82. Care of a child with allergic rhinitis
83. Acute attack of asthma: What to do?
84. Home care of Chronic Asthma
85. Home care of child on oxygen and ventilation

XV. RENAL DISORDERS
86. Care of a child with nephrotic syndrome
87. Care of a child with recurrent UTI
88. Care of a child with Congenital Anomalies of Kidney and Urinary Tract (CAKUT)
89. Care of a child with chronic Kidney Disease
XVI. MISCELLANEOUS

90. Care of a Child with Skin allergies
91. Dealing with environmental pollution
92. Animal bite
93. When to suspect Drug and substance abuse
94. Genetic disorders: Preventing Recurrence?
95. Care of a child with Down syndrome
96. Rheumatoid disorders
97. Child Rights and Child Labor
98. Adoption
99. Care of a child with chronic disease
100. Care of a terminally ill child
