Dear Colleagues,

Physical & E-learning has become an offshoot in these Covid pandemic days. The IAP rose to the demand of the changing and challenging times by setting up a physical and digital platform that helped to continue the medical education for the members in India and also across the world.

We have conducted over 1000 academic events so far, and total attendance has exceeded 2 million. We can confidently say that we now have the experience to reliably deliver education support for the extensive nationwide programs planned for 2021. This acquired expertise is for online education, hybrid education (online plus offline), and offline classroom education supported by high-quality IAP recorded content.

We are excited to bring to you this new year of academic bonanza. The academic council of the IAP is happy to announce yet another academic bonanza, "CIAP Pedicon - 2021", a first of its kind ‘physical & digital’ & a unique platform to reach out to 30,000+ Pediatricians, our conference starts from 4 – 7 February, 2021.

CIAP Pedicon - 2021 offers an excellent opportunity for industry participants to support non-partisan IAP education and build on their thought leadership and brand recall. Various partnership formats are available. Kindly get in touch with your IAP contact to know more.

We look forward to your continuing support towards IAP’s Professional Education initiatives.

With warm regards,

Dr. Piyush Gupta
IAP President 2021
Conference Chairman

Dr. Bakul Jayant Parekh
